

NEW MTA Multi 181 Mig Welder

This is a unique professional multi process welding machine with battery charging & engine starting functions & a digital meter for super accurate read out of welding & charging parameters & is based around our very popular MIG 181. This machine is designed and manufactured in Great Britain using high quality components to industrial standards & is constructed in a heavy gauge powder coated steel case which can withstand lots of abuse. The internals are built using overrated components to guarantee the best possible long term reliability.

Multi process functions

- MIG welding with gas
- MIG welding with gasless wire reverse polarity
- MIG brazing capability
- Battery charging & boosting & engine start

Specification	230v single phase	MIG	Charging/starting
Amps range		15-185	1-250
Volt steps		12	12
Duty cycle		90 A (60%)	35A (100%)
Input fuse (slow blow)		16A (13A can be used up to about 160A)	16A
