

MTA AC/DC 166i HF Tig Welder

MTA AC/DC 166i HF Tig

This single phase tig machine is the latest 160 amp tig from MTA. Compact and Portable, Robust cabinet, High operating duty cycle, operator friendly controls, LED current display, remote control facility, AC balance control, Pre and Post gas timers, Down slope timer, Trigger latch, MMA / TIG. Optional extras; Water cooling package and remote foot control.

This excellent value imported machine has been re-engineered in Britain to gain a BS EN 60974-1 Standard and is CE marked it is also RoHS compliant meaning it has proper HF screening unlike some advertised on the net, which also means surrounding computers and alarm systems should not be affected.

- Infinitely variable output between 10 and 160 amps
- AC welding for Aluminium & alloys & DC welding for Stainless etc
- HF to start & maintain the arc
- Variable pre & post flow gas to give perfect starts & finishes to every weld
- Variable slope down to allow crater filling
- Torch trigger latching facility
- True AC squarewave with balance to control arc cleaning & penetration
- Digital ammeter shows approx selected amperage prior to actually welding
- Remote socket for foot control or remote control etc.
- MMA stick welding function
