

NEW

MTA Push Pull Gun Kit

A ready to weld system which fits all machines with a Euro connection in seconds. Unique design means no separate control box, PCB or engineer fitting is needed.

The PPS250 & PPS360 are fitted with an 8M rubber sheathed cable assembly, & take standard BZL type consumables. The gun is robust yet only weighs 1.1kg for the 250 & 1.2kg for the 360, so is easy for the operator to handle. This product is especially beneficial for high productivity welding of aluminium, eliminates all those starting & feeding problems. Also works great with ferrous & non ferrous metal. Now also available with bent necks which can be positioned to any angle.

This truly unique product works on all MIG machines fitted with a Euro & can be moved from machine to machine in seconds, Satisfaction guaranteed.
