

# MTA Tig Start 190 AC/DC

## TIG box to fit any MMA power source AC or DC

Universal TIG box which will connect onto any constant current stick welding power source to give excellent Tig welding performance at low cost

Newly Released Machine

Sample AC TIG weld on 2mm aluminium with TIG-START 190 AC DC at around 90amps

### Standard functions/features

AC/DC welding depending on power source, to weld a wide range of materials.  
Electronic HF to start and stabilise the welding arc.  
3/8 BSP gas and power connection to take standard tig torches.  
Gas post flow adjustment to give a good finish without contamination to welds.  
Heavy duty inbuilt contactor to start and stop the welding arc.  
Works with any MMA power source from 45 volts to 110 volts output.

### Technical specification

Welding current range	5A-190A
Duty cycle	100A/100% 190
Welding OCV range	45V-110V AC or DC
Aux supply	230V 50va

This machine comes supplied with a TIG Torch only
